Grupa Azoty Group to release estimates of its consolidated production output on a regular basis

On February 22nd 2023, the Management Board of Grupa Azoty S.A. made a decision to commence regular publication of estimates of the Group's consolidated production output on a monthly basis. The Company wishes to emphasise that its production output is adjusted in line with changes in demand on the European market. The reporting of estimated output figures is intended to enhance the transparency of the Company information disclosure policy, whose purpose is to ensure that investors are provided with access to information which is relevant to assessing the condition of Grupa Azoty S.A. and its Group.

Monthly reports on estimated production output will be released on a regular basis, no later than by the 15th day of the month following the month for which such report is made. The first ever estimates of the Group's consolidated production output, for January 2023, were published in the form of a current report on February 22nd 2023 and are available [HERE](#).

Actual quarterly output figures will be released in the consolidated report for the first quarter of 2023.
